

“Scottish Salmon Farming Exposed”

A Review of Infectious Diseases, Toxic Chemicals
and Mortalities of Scotland's Salmon Farms

A talk by Don Staniford

from the Global Alliance Against Industrial Aquaculture

Followed by a report about the situation specific
to Skye and an open debate.

Thursday 8 November, 7.30pm
at Sabhal Mòr Ostaig (Old Campus)
near Armadale, Sleat.

Preparations for at least 14 more fish farms around Skye have recently started. Fish farms have a very significant impact on wildlife and human communities both. That would include you. Do these impacts include more jobs, or less? A vibrantly alive sea, or a dying one? Come and decide.

More information: 01471 844219, 07762 230470 or

It is the intention to have a presentation by a fish farm representative so both sides of the story are covered, but so far we're unable to find someone willing to take this on.
