	Ocean Farm Ltd	Mc Swyne's	Atlantic salmon, 2013	17/06/14	2.87	8.69
Mulroy Bay	Marine Harvest Irl.	Millstone	Atlantic salmon, 2014	18/06/14	0.00	0.00
		Glinsk	Atlantic salmon, 2014	18/06/14	0.00	0.00

Elevated Lice Levels

Elevated sea lice levels are levels which are in excess of treatment trigger levels as set out in "Monitoring Protocol No. 3 for Offshore Finfish Farms-Sea Lice Monitoring and Control" (DMNR 2000) & "A strategy for improved pest control on Irish salmon farm" (DAFF 2008). A notice to carry out a sea lice treatment (NTT) is issued on the basis of elevated sea lice levels. Treatment triggers during the spring period (March, April & May) are from 0.3 to 0.5 egg bearing female (oviparous) sea lice per fish. Outside of the critical spring period, a level of 2.0 egg bearing female sea lice per fish acts as a trigger for a NTT.

Elevated sea lice levels were recorded at Corhounagh, Mannin Bay Salmon Ltd, Mannin Bay.

Elevated sea lice levels were recorded at Hawks Nest, Mannin Bay Salmon Ltd, Mannin Bay.

Elevated lice levels were recorded at McSwynes and Richie's Bay, Ocean Farm Ltd., Donegal Bay.

Sample Details

All samples were obtained.

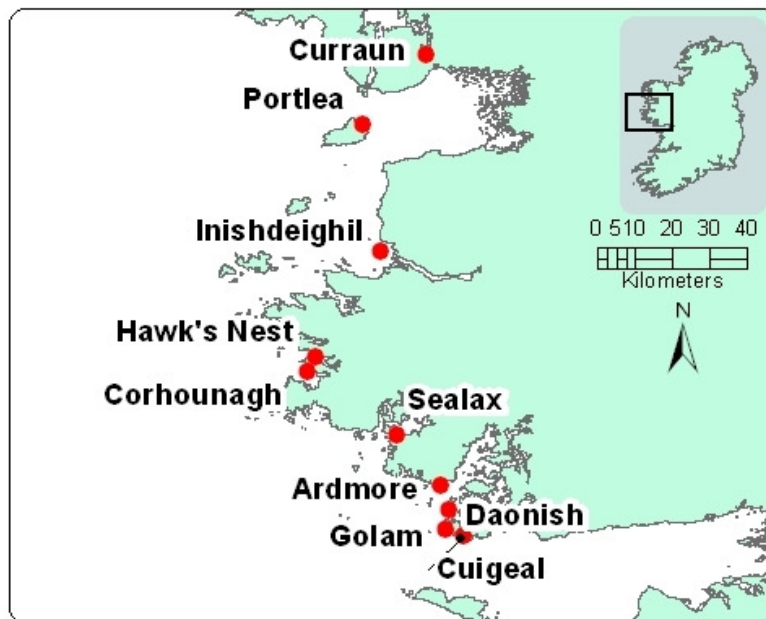

Appendix 1 shows the location of all active fish farms site.
